SUBJECT

AUTHOR

CONTENTS FOR VOLUME 74

# Index of Subjects

Volume 74, 1974

- Abortion**
  - saline-induced, mechanism of fetal death in, 6a
- Acidosis**
  - and Ehrlich ascites tumor cell viability, 60a
  - fatal, from pancake syrup ingestion after colonic interposition, 5a
- Addiction to drugs**
  - nephropathy in, 20a
- Adenohypophysis**
  - in growth hormone deficiency, 38a
  - sex chromatin-positive cells in, in males, 42a
- Adenosine monophosphate, cyclic**
  - response to norepinephrine by liver mitochondria in ethanol dependency, 67a
- Adenovirus**
  - embryonic neuronal neoplasms from, in ocular tissue, 4a
  - infection with inclusion body hepatitis, 13a
- Adenylate cyclase**
  - localization in kidney, 30a
- Adrenal gland**
  - and hepatic role in experimental arteriosclerosis, 51a
- Alcoholism**
  - hepatitis and cirrhosis caused by, in primates, 67a
  - serum chemical templates for, 103a
  - See also Ethanol*
- Allografts**
  - of lungs, 533
- Alveoli**
  - pulmonary, *See Lungs*
- Amniotic aspiration**
  - and otitis media in neonates, 7a
- Androgen**
  - biosynthesis affected by ethionine, 28a
- Aneurysms**
  - true mycotic, intracranial, 2a
- Animal Model of Human Disease**
  - Feline GM, gangliosidosis, 649
  - mannosidosis of Angus cattle, 211
  - Sipple's syndrome, 377
- Antibodies**
  - autoantibodies in breast carcinoma, 45a
  - formation with limited reactivity of lymphocytes, 66a
  - hepatitis B antigen-antibody complexes interacting with rheumatoid factor, 70a
  - localization in hemolytic uremic syndrome, 12a
- $\alpha$ -1-Antritypsin deficiency**
  - and glomerulonephritis with cirrhosis, 12a
- Aorta**
  - antiatherogenic surfactant affecting, 50a
  - cell proliferation in diabetes, 50a
  - estrogen affecting medial tissue culture cells, 52a
  - stenosis of, and regional myocardial blood flow, 76a
- Appendix**
  - carcinoid tumors of, in children, 14a
- Arginine decarboxylase**
  - antineoplastic activity of, 39a
- Arrhythmias**
  - atrial, tricuspid complex in, 73a
- Arsenate**
  - affecting renal mitochondria, 57a
- Arterioles**
  - renal, in malignant hypertension, 35a
- Aschoff bodies**
  - myocardial, in rheumatic fever from nerves, 73a
- Aspergillus**
  - endotoxin from, affecting kidney, 19a
  - oxalosis from infection with, 107a
- Atherosclerosis**
  - antiatherogenic surfactant affecting aorta, 50a
  - circulating lipoproteins in, 49a
  - coronary, induction in swine, 53a
  - hepatoadrenal role in, 51a
  - induction by lymphocytotoxic serum, 52a
- Atrial arrhythmias**
  - tricuspid complex in, 73a
- Atrophy**
  - cerebral, of metabolic origin, 4a
- Autoantibodies**
  - in breast carcinoma, 45a
- Autoimmune disease**
  - in mice, cell-mediated immune defects in, 85a
- Axons**
  - hereditary dystrophy of, in cats, 551
  - myelinated, dense core vesicles in, 1a

- Bacteria**  
quinoid compounds affecting, 29a
- Bacterial infections**  
of ear, and amniotic aspiration in neonates, 7a  
and fetal lung maturation, 9a
- Barr bodies**  
in adenohipophysis, in males, 42a
- Biliary atresia**  
hepatocellular carcinoma in, 13a
- Biopsy**  
liver, for detection of prosthetic heart valve ball variance, 78a  
renal, in Wegener's granulomatosis, 423
- Biphenyls**  
polychlorinated, long-term effects of, 24a
- Birth weight, low**  
and cholestasis, 6a  
placental pathology in, 7a
- Bladder**  
carcinoma of, surfaces of transitional epithelial cells in, 18a
- Bluetongue virus**  
affecting fetal sheep, 25a
- Bone marrow**  
allogeneic chimerism, and treatment of neoplasia, 47a
- Bone marrow-derived cells**  
markers for, in leukemia and lymphoma, 64a
- Brain** *See* Central nervous system
- Breast cancer**  
autoantibodies in, 45a  
biologic behavior of histogenetic types of, 45a  
glycoproteins from cell membranes of, 61a  
and pleural effusions as source of cells for tissue culture, 44a
- Bronchioles**  
nonciliated epithelial cells of, 48a
- Busulfan cells**  
ultrastructure of, 107a
- C cells**  
in neonatal thyroid gland, 110a  
normal and neoplastic, 23a  
thyroidal, in medullary carcinoma, 46a
- Cadmium**  
enteropathy from, in quail, 25a  
Fanconi syndrome from, 21a  
interaction with endotoxin, affecting hepatic function, 69a
- Calcific mitral stenosis**  
thrombotic, 88a
- Calcium-binding protein**  
localization in tissues, 83a
- Carcinogen**  
inducing medulloepithelioma, 40a
- Carcinoid neoplasms**  
of appendix, in children, 14a
- Carcinoma**  
of bladder, surfaces of transitional epithelial cells in, 18a  
of breast *See* Breast cancer  
clear cell, of kidney, renin production by, 18a  
DNA damage and repair in carcinogenesis, 81a  
hepatocellular  
in biliary atresia, 13a  
compared to embryonic liver, 103a  
of lung *See* Lungs, carcinoma  
of ovary, embryonal, endoderm cell derivatives in, 108a  
thyroid  
C cell distribution in, 46a  
in Sipple's syndrome, 377
- Cardiomyopathy**  
radiation-induced, 125  
*See also* Heart
- Carotid artery**  
atherosclerosis induction by lymphocytotoxic serum, 52a
- Cartilage**  
resistance to invasion by tumor cells, 104a
- Cathepsin D**  
and tuberculosis pathogenesis, 1
- Central nervous system**  
adenohipophysis in growth hormone deficiency, 38a  
atrophy of brain, of metabolic origin, 4a  
cold-induced edema of brain, reserpine in, 2a  
cerebellar synaptogenesis in thyroid deficiency, 2a  
cytologic effects of cerebral ischemic injury, 36a  
dense core vesicles in myelinated axons, 1a  
developing weaver mouse cerebellum, 2a  
encephalopathy *See* Encephalopathy  
experimental cerebral microembolization, 26a  
in fetal Niemann-Pick disease, 104a  
glial fibrillary acidic protein in gliosis, 1a  
glioma regression after arginine decarboxylase, 39a  
hemangioblastoma of cerebellum, 3a

- hexachlorophence affecting, 5a, 40a
- histology in trisomies, 36a
- intracerebral nodules in experimental leukemia, 3a
- intradural spinal rhabdomyolipoma, 41a
- in lead encephalopathy, 215
- leukemia of, after therapy in leukemic mice, 48a
- leukoencephalopathy in treated CNS leukemia, 3a
- lipidoses of brain, in childhood, 4a
- medulloepithelioma induction by chemical carcinogen, 40a
- metastases to brain from lung carcinoma, 3a
- microcirculation after middle cerebral artery occlusion, 37a
- microtubules in brain, 1a
- perinatal leukoencephalopathy, 4a
- periventricular leukomalacia, 591, 603
- prognosis of ependymomas in childhood, 4a
- progressive diffuse sclerosis of brain, 4a
- sex-chromatin cells in adenohypophysis, in males, 42a
- in surgery for congenital heart disease, 91a
- telencephalic leukoencephalopathy from lipopolysaccharide, in neonates, 14a
- Cerebellum.** *See* Central nervous system
- Cerebrohepato renal syndrome**
  - histopathology of, 16a
- Cerebrum.** *See* Central nervous system
- Chagas disease**
  - T. cruzi*-sensitized lymphocytes in, 85a
- Cholestasis**
  - in low birth weight prematures, 6a
- Cholesterol**
  - coronary atherosclerosis from, in swine, 53a
- Chromosomes**
  - structure of, and neoplasia, 81a
- Cirrhosis**
  - experimental, in primates, 68a
  - with glomerulonephritis and A1AT deficiency, 12a
- Clara cells**
  - ultrastructure of, 48a
- Clofibrate**
  - hepatocellular changes from, 67a
- Clonal disease**
  - neoplasia as, 80a
- Clonal selection**
  - in hyperplasia, 137
- Coagulation**
  - in experimental hemoglobinemia, 567
- Cobalt-60**
  - radiation pneumonitis from, 105a
- Cobra venom factor**
  - and generalized Shwartzman reaction, 19
- Cold**
  - cerebral edema from, reserpine in, 2a
- Colonic interposition**
  - and fatal hyperglycemia and acidosis after pancake syrup ingestion, 5a
- Computer-assisted instruction**
  - in medical education, 99a
- Copper-loading**
  - hepatic, 56a, 68a
- Cornea**
  - cellular immunity of, 365
  - vasculature in experimental models, 49a
- Coronary arteries**
  - atherosclerosis induction in swine, 53a
  - occlusion of, and propranolol reduction of necrosis, 76a
- Cryoglobulinemia**
  - monoclonal, with glomerulonephritis, 34a
- Cyclophosphamide**
  - hemorrhagic diathesis from, 171
  - sclerosing alveolitis from, 96a
- Cytochalasin B**
  - and microfilaments, 1a
- Cytochrome oxidase**
  - in abnormal mitochondria, 57a
- Cytomegalovirus infection**
  - murine, 467
- Cytoplasm**
  - of cardiac muscle cells, junctional structures in, 613
  - hepatocytic, hepatitis B antigen in, 72a
- Diabetes**
  - macroangiopathy in, 50a
  - maternal, and fetal lung maturation, 9a
- Diabetes-like disease**
  - from encephalomyocarditis virus, 287
- Dialysis**
  - effects in renal osteodystrophy, 31a
- Diet.** *See* Nutrition
- Dimethylnitrosamine**
  - in fish meal, affecting pigs, 95
  - monosomes produced by, transfer RNA in, 58a

- Diphenylhydantoin**  
and norepinephrine uptake in synap-  
tosomes, 2a
- Distemper**  
virus-induced lymphoid depletion in,  
155
- DNA**  
damage and repair in carcinogenesis,  
81a  
repetitive, and neoplasia, 81a  
synthesis in right ventricular hyper-  
trophy, 77a
- Drug addiction**  
nephropathy in, 20a
- Dystrophy**  
hereditary neuroaxonal, in cats, 551
- Ears**  
infection of, and amniotic aspiration  
in neonates, 7a
- Edema, cerebral**  
cold-induced, reserpine in, 2a  
in lead encephalopathy, 215
- Education, medical**  
collection of illustrated cases in, 101a  
elective course in, 100a  
independent study program in, 100a  
journal roles, 99a  
modular instruction, computer-as-  
sisted instruction and microfiche  
in, 99a  
problem-oriented postmortem exami-  
nation in, 101a
- Eikenella corrodens* infection**  
and drug sensitivity, 108a
- Electron microscopy**  
of adenylate cyclase in nephron, 30a  
of arterioles in malignant nephro-  
sclerosis, 35a  
of busulfan lung, 107a  
of cardiac muscle in opossum, 74a  
of cardiomyopathy from radiation,  
125  
of cerebellar hemangioblastom, 3a  
of cerebellum in developing weaver  
mouse, 2a  
of cerebral cells in ischemic injury,  
36a  
of cerebral lipidoses in childhood, 4a  
of cerebral metastases from lung car-  
cinoma, 3a  
of Clara cells, 48a  
of coronary atherosclerosis in swine,  
53a  
of cytomegalovirus infection in mice,  
467  
of endoderm cells in embryonal car-  
cinoma of ovary, 108a  
of Fanconi syndrome from cadmium,  
21a  
of globoid cells in Krabbe's disease,  
4a  
of kidney after halothane, 22a  
of lead encephalopathy, 215  
of leukemia mitochondria, 71  
of leukocyte damage to venous en-  
dothelium, 507  
of limb-girdle muscles in ocular myop-  
athy, 15a  
of lung injury from papain, 95a  
of lung response to ozone, 31  
of lymph node cells from non-Hodg-  
kin's lymphomas, 47a  
of mitochondria in liver regeneration,  
241  
of mitochondria in ocular myopathy,  
2a  
of myocardial cell necrosis, 399  
of optic nerve after hexachlorophene,  
40a  
of pancreatic islet lesions from en-  
cephalomyocarditis virus, 287  
of pineocytoma, 3a  
of platelet response to phorbol my-  
ristate acetate, 441, 453  
of radiation-induced microvasculo-  
pathy, 53a  
of renin-producing clear cell carci-  
noma of kidney, 18a  
scanning, of heart, 74a, 102a  
of sweat glands in Hurler's and  
Hunter's disease, 16a  
of testicular tumors, 70a  
of tricuspid complex, 73a
- Electrophysiology**  
of tricuspid complex, 73a
- Embolism**  
experimental cerebral microemboliza-  
tion, 26a  
local arterial wall injury from, 89a
- Encephalomyelitis, experimental aller-  
gic**  
malnutrition affecting, 39a  
studies with brown Norwegian rats,  
41a
- Encephalomyocarditis virus**  
pancreatic islet lesions from, 287
- Encephalopathy**  
lead, 215  
mercurial, and synaptosome protein  
synthesis, 38a  
*See also* Leukoencephalopathy
- Endoderm cell derivatives**  
in embryonal carcinoma of ovary,  
108a

- Endothelium**  
arteriolar, early lesions after injury, 89a  
venous, leukocytes affecting, 507
- Endotoxemia**  
as model for shock lung, 90a
- Endotoxin**  
from *Aspergillus fumigatus*, affecting kidney, 19a  
interaction with cadmium acetate, affecting hepatic function, 69a  
and renal cortical fibrinolytic activity, 19
- Enteropathy**  
from cadmium, in quail, 25a
- Eosinophilic particles**  
in larynx, 106a
- Eosinophils**  
crystalloid granules in, 56a
- Ependymoma**  
in childhood, prognosis of, 4a
- Epithelial cells**  
alveolar  
type 2, isolation of, 95a  
response to trypsin, 96a  
transitional, surfaces of, in bladder carcinoma, 18a
- Epithelioid cell granulomas**  
giant cell formation in, 263
- Epithelium**  
respiratory, in lung cancer, 98a
- Erythroblastosis fetalis**  
and fetal lung maturation, 9a
- Estrogen**  
affecting aortic medial tissue culture cells, 52a
- Ethanol**  
dependency on, and cyclic AMP response to norepinephrine by liver mitochondria, 67a  
and experimental hepatitis and cirrhosis in primates, 68a
- Ethionine**  
affecting organelles in Leydig cells, 28a
- Ethylhydrazine HCl**  
lung tumors from, 98a
- Ethyl nitrosourea**  
and medulloepithelioma induction, 40a
- Evans blue**  
aortic uptake after treatment with surfactant, 50a
- Eyes**  
adenovirus-induced embryonic neuronal neoplasms of, 4a  
hexachlorophene affecting optic nerve, 40a
- ocular myopathy  
limb-girdle muscle ultrastructure in, 15a  
mitochondria in, 2a  
tumor induction by chemical carcinogen, 40a
- Fanconi syndrome**  
cadmium-induced, 21a
- Fatty metamorphosis**  
glial, 603
- Ferritin**  
protein subunits of, in rat cells, 63a
- Fetus**  
acute inflammatory reaction in, 24a  
bluetongue virus affecting, in sheep, 25a  
lung maturation in, factors affecting, 9a, 93a  
Niemann-Pick disease in, 104a  
pathology in saline-induced abortion, 6a
- Fever**  
from intravenous pyrogens, 82a
- Fiber deformation**  
myocardial, in early infarction, 301
- Fibrinolytic activity**  
renal cortical, cobra venom factor affecting, 19
- Fighting**  
and norepinephrine uptake in synaptosomes of mice, 2a
- Fish meal**  
DMNA in, affecting pigs, 95
- Fungus**  
quinoid compounds affecting, 29a  
true mycotic aneurysms, intracranial, 2a  
*See also* *Aspergillus*
- Gangliosidosis**  
ANIMAL MODEL OF HUMAN DISEASE, 649
- Genetics**  
and cancer, 80a  
chromosome structure, and neoplasia, 81a
- Germinal centers**  
in host versus graft syndrome, 84a
- Giant cells**  
formation in epithelioid cell granulomas, 263  
in malignant tumor of soft parts, in animals, 27a
- Glial cells**  
fatty metamorphosis in, 603  
fibrillary acidic protein in, 1a

- Gliomas**  
  regression after arginine decarboxylase, 39a
- Globoid cell**  
  development in Krabbe's disease, 4a
- Glomerulonephritis** *See* Kidney
- Glucose**  
  dysmetabolism and membranous nephropathy, 33a  
  fatal hyperglycemia from pancake syrup ingestion after colonic intubation, 5a
- Glucose-6-phosphatase**  
  in renal proximal tubule cells, 275
- $\beta$ -Glucuronidase**  
  hepatic, copper-loading affecting, 56a, 68a
- Glutamine**  
  and inhibitory effect of oleate on HeLa cells, 44a
- $\gamma$ -Glutamyl transpeptidase**  
  levels in alcoholism, 103a
- Glycolipid**  
  soybean, inhibiting cell division, 61a
- Glycoproteins**  
  from cell membranes of lung and breast carcinomas, 61a  
  fetal, new type of, 62a
- Grafts** *See* Transplantation
- Granulomas**  
  epithelioid cell, giant cell formation in, 263
- Granulomatosis**  
  Wegener's, renal biopsy in, 423
- Growth**  
  regulation in normal and malignant cells, 81a
- Growth hormone**  
  deficiency of, adenohipophysis in, 38a
- GW-532 neoplasm**  
  in hamsters, 46a
- Halothane**  
  hepatic injuries from low levels of, 103a  
  renal changes from, 22a
- Hamartoma**  
  cardiac, in opossum, 74a
- Heart**  
  allogeneic cells rejected by *T. cruzi*-sensitized lymphocytes, 85a  
  Aschoff bodies in rheumatic fever from nerves, 73a  
  cell volume control in ischemia, 75a  
  congenital disease of, surgery in, brain changes from, 91a  
  early infarcts, histopathology of, 301  
  experimental right ventricular hypertrophy, 77a  
  intercytoplasmic junctions in cells, 613  
  myocardial zonal lesions, 77a  
  myxomas from mural thrombi, 87a  
  necrosis of  
    propranolol reduction of, 76a  
    in right ventricular hypertrophy, 77a  
    in sudden death, 75a  
  prosthetic ball variance detection by liver biopsy, 78a  
  radiation-induced cardiomyopathy, 125  
  regional blood flow after aortic stenosis, 76a  
  scanning electron microscopy of, 74a, 102a  
  semilunar valve development in, 331  
  transient ischemia affecting cells in, 381, 399  
  tricuspid complex in atrial arrhythmias, 73a  
  ultrastructure in opossum, 74a
- HeLa cells**  
  growth inhibition by oleate, 44a
- Hemangioblastoma**  
  cerebellar, 32
- Hematopoietic cells**  
  interference contrast microscopy of, 59
- Hemodialysis**  
  effects in renal osteodystrophy, 31a
- Hemoglobinemia**  
  experimental, coagulation in, 567
- Hemolytic uremic syndrome**  
  antibody localization in, 12a
- Hemorrhagic diathesis**  
  from cyclophosphamide, 171
- Hemosiderosis**  
  of liver, dietary factors in, 481
- Hepatic conditions** *See* Liver
- Hepatitis B antigen**  
  antibody complexes, interaction with rheumatoid factor, 70a  
  in hepatocytic cytoplasm, 72a  
  in liver biopsies in hepatitis, 72a
- Hexachlorophene**  
  toxicity of, 5a, 40a
- Histiocytoma**  
  fibrous, morphologic classification of, 109a
- Histiocytosis**  
  pulmonary, rapid evolution of, 8a
- HL-A antigens**  
  and immune response to streptococcal antigens, 62a

- Host versus graft syndrome**  
germinal centers and plasma cells in, 84a  
and hepatic lesions in mice, 84a
- Hunter's disease**  
sweat gland ultrastructure in, 16a
- Hurler's disease**  
sweat gland ultrastructure in, 16a
- Hyaline membrane disease**  
lipid in pathogenesis of, 10a
- Hydrocarbon**  
pneumonitis from, 9a
- Hydrocephalus**  
congenital, influenza virus-induced, 2a
- 4-Hydroxyaminoquinoline-1-oxide**  
affecting pancreatic acinar cells, 59a
- Hyperalimentation**  
intravenous, pathology of, 90a
- Hyperglycemia**  
fatal, from pancake syrup ingestion, after colonic interposition, 5a
- Hyperplasia**  
clonal selection in, 137
- Hypertension**  
malignant, renal arteriolar changes in, 35a  
pulmonary, allografted lungs in, 533
- Hypothalamus**  
in hemorrhagic diathesis from cyclophosphamide, 171
- Immune complexes**  
in lupus erythematosus, 109
- Immune response**  
autoantibodies in breast carcinoma, 45a  
cell-mediated defects in SLE and in murine autoimmune disease, 85a  
and lysis of virus-infected cells, rheumatoid factor affecting, 86a  
and neoplastic process, 80a  
to streptococcal antigens, HL-A related to, 62a  
transplantation, and radiosensitivity of lymphocytes, 65a
- Immunity**  
corneal cellular, 365
- Immunization**  
against retrograde pyelonephritis, 345, 359
- Immunofluorescence**  
of protein subunits of ferritin, 63a  
of testicular tumors, 70a
- Immunoglobulin A**  
and glomerular disease, 32a  
secretory component in, 61a
- Immunoglobulins**  
localization in hemolytic uremic syndrome, 12a  
production with helper activity of thymic cells, 64a
- Immunosuppression**  
from procarbazine hydrochloride, 83a
- Inclusion body hepatitis**  
with adenovirus infection, 13a
- Influenza virus**  
and hydrocephalus in monkeys, 2a
- Interference contrast microscopy**  
of hematopoietic cells, 59
- Iron**  
deposits in liver, diet affecting, 481
- Ischemia**  
cardiac  
cell volume control in, 75a  
scanning electron microscopy of, 102a  
cerebral, cytologic effects of, 36a  
transient, affecting myocardial cells, 381, 399
- Isolation of cells** *See* Separation of cells
- Jejunum**  
calcium-binding protein in, 83a
- Journals**  
in medical education, 99a
- Kidney**  
adenylate cyclase localization in, 30a  
arteriolar changes in malignant hypertension, 35a  
*Aspergillus fumigatus* endotoxin affecting, 19a  
biopsy in Wegener's granulomatosis, 423  
calcium-binding protein in, 83a  
cerebrohepatorenal syndrome, 16a  
cirrhosis with glomerulonephritis and AIAT deficiency, 12a  
clear cell carcinoma of, renin production by, 18a  
cortical fibrinolytic activity affected by cobra venom factor, 19  
dialysis and transplantation affecting renal osteodystrophy, 31a  
drug addiction nephropathy, 20a  
glomerular immune complexes in SLE, 109  
halothane affecting, 22a  
IgA-associated glomerular disease, 32a  
immunization against retrograde pyelonephritis, 345, 359  
isolation of proximal tubule cells, 275  
lead nephropathy, 22a

- leukocyte accumulation in vasa recta
    - in acute failure, 31a
  - membranous nepropathy and glucose dysmetabolism, 33a
  - mercury intoxication affecting, 21a
  - minimal change nephrotic syndrome, 11a
  - mitochondrial response to arsenate, 57a
  - monoclonal cryoglobulinemia with glomerulonephritis, 34a
  - morphometry in glomerulonephritis with many crescents, 34a
  - peroxidase activity in medullary interstitial cells, 30a
  - podocyte degeneration in focal glomerular sclerosis, 33a
  - repair after induced papillary necrosis, 32a
  - thioacetamide affecting, 575
  - ultrasound-induced injury to, 20a
  - vascular disease in progressive systemic sclerosis, 19a
- Krabbe's disease**  
globoid cell development in, 4a
- Larynx**  
eosinophilic particles in, 106a
- Lead**  
encephalopathy from, 215  
nepropathy from, morphometric analysis of, 22a
- Lectins**  
receptors for, on erythrocyte membranes, 87a
- Leukemia**  
and cells with T and B lymphocyte markers, 64a  
of CNS, and leukoencephalopathy, 3a  
experimental, intracerebral nodules in, 3a  
and interference contrast microscopy of hematopoietic cells, 59  
meningeal, after therapy in leukemic mice, 48a  
mitochondria in, 71
- Leukocytes**  
accumulation in vasa recta, in acute renal failure, 31a  
venous endothelial damage from, 50
- Leukodystrophy**  
globoid cell, 4a
- Leukoencephalopathy**  
perinatal, 4a  
telencephalic, from lipopolysaccharide, in neonates, 14a  
in treated CNS leukemia, 3a

Volume 74, 1974  
(January through March)

## BOARD OF EDITORS

Thomas D. Kinney, *Editor-in-Chief*

Donald B. Hackel, *Associate Editor*

Orville T. Bailey	Robert H. Heptinstall
Frederick F. Becker	Paul Kotin
Baruj Benacerraf	Averill A. Liebow
Kurt Benirschke	Guido Majno
Joel G. Brunson	Donald G. McKay
John R. Carter	Henry D. Moon
Charles G. Cochrane	Councilman Morgan
John M. Craig	Goetz W. Richter
Frank J. Dixon, Jr	David T. Rowlands, Jr
John T. Ellis	Edward A. Smuckler
Frank W. Fitch	Leon Sokoloff
Patrick J. Fitzgerald	Benjamin H. Spargo
David G. Freiman	Lewis Thomas
Jack C. Geer	Jacinto J. Vazquez
Gabriel Godman	F. Stephen Vogel
John B. Hazard	

*Editorial Assistant: Virginia Hotelling*

## CONTENTS FOR VOLUME 74, 1974

### January

- 1 The Role of Cathepsin D in the Pathogenesis of Tuberculosis: A Histochemical Study Employing Unlabeled Antibodies and the Peroxidase-Antiperoxidase Complex  
*Oscar Rojas-Espinosa, Arthur M. Dannenberg Jr, Ludwig A. Sternberger and Tomiyasu Tsuda*
- 19 Failure of Cobra Venom Factor to Prevent the Generalized Shwartzman Reaction and Loss of Renal Cortical Fibrinolytic Activity  
*Jerry M. Bergstein and Alfred F. Michael Jr*
- 31 Early Response of Lung to Low Levels of Ozone  
*Robert J. Stephens, Marlene F. Sloan, Michael J. Evans and Gustave Freeman*
- 59 Cytologic Studies of Hematopoietic Cells by Interference Contrast (Nomarski) Optics  
*Leonard S. Kaplow*
- 71 Leukemic Mitochondria. I. Acute Myeloblastic Leukemia  
*H. R. Schumacher, I. E. Szekely, S. B. Patel and D. R. Fisher*
- 83 Separation of Hamster Testicular Cells in Successive Stages of Differentiation by Velocity Sedimentation in an Isokinetic Gradient of Ficoll in Tissue Culture Medium  
*Thomas G. Pretlow II, Margaret M. Scalise and E. Earl Weir*
- 95 Dimethylnitrosamine—Formation in Fish Meal and Toxic Effects in Pigs  
*Nils Koppang*
- 109 Polynucleotide Immune Complexes in Serum and Glomeruli of Patients with Systemic Lupus Erythematosus  
*David Koffler, Vincent Agnello and Henry G. Kunkel*
- 125 Radiation-Induced Cardiomyopathy. II. An Electron Microscopic Study of Myocardial Microvasculature  
*M. Yusuf Khan and M. Ohanian*
- 137 Clonal Selection, Attenuation and Differentiation in an *In Vitro* Model of Hyperplasia  
*George M. Martin, Curtis A. Sprague, Thomas H. Norwood and William R. Pendergrass*
- 155 Experimental Canine Distemper Virus-Induced Lymphoid Depletion  
*Bruce McCullough, Steven Krakowka and Adalbert Koestner*
- 171 A Hemorrhagic Diathesis with Involvement of Hypothalamus Produced in Rats by Cyclophosphamide  
*Seymour Levine and Richard Sowinski*
- 179 REVIEW ARTICLE: Hepatoma—Nature's Model Tumor  
*Frederick F. Becker*
- 211 Animal Model of Human Disease: Mannosidosis of Children, Other Inherited Lysosomal Storage Disorders  
*R. D. Jolly*

### February

- 215 Electron Microscopic and Chemical Studies of the Vascular Changes and Edema of Lead Encephalopathy: A Comparative Study of the Human and Experimental Disease  
*Raymond A. Clasen, J. Francis Hartmann, Arthur J. Starr, Philip S. Coogan, Sylvia Pandolfi, Iris Laing, Ruth Becker and George M. Hass*
- 241 Mitochondrial Conformation and Swelling-Contraction Reactivity During Early Liver Regeneration  
*M. Anthony Verity, W. Jann Brown and M. Cheung*
- 263 Formation of Multinucleate Giant Cells in Organized Epithelioid Cell Granulomas  
*Martin M. Black and William L. Epstein*

- 275 Separation of Cells Having Histochemically Demonstrable Glucose-6-Phosphatase from Suspensions of Hamster Kidney Cells in an Isokinetic Density Gradient of Ficoll in Tissue Culture Medium  
*Thomas G. Pretlow II, Judith Jones and Sherron Dow*
- 287 Lesions of the Islets of Langerhans in Encephalomyocarditis Virus-Infected Mice with Diabetes Mellitus-Like Disease. I. Acute Lesions  
*J. E. Craighead, R. E. Kanich and J. B. Kessler*
- 301 Histopathology of Early Myocardial Infarcts: A New Approach  
*Bernard Bouchardy and Guido Majno*
- 331 The Development of the Semilunar Valves in the Human Heart  
*Barry J. Maron and Grover M. Hutchins*
- 345 Immunization Against Retrograde Pyelonephritis. I. Production of an Experimental Model of Severe Ascending *Escherichia coli* Pyelonephritis Without Bacteremia in Rats  
*S. J. D. Brooks, J. M. Lyons and A. I. Braude*
- 359 Immunization Against Retrograde Pyelonephritis. II. Prevention of Retrograde *Escherichia coli* Pyelonephritis with Vaccines  
*S. J. D. Brooks, J. M. Lyons and A. I. Braude*
- 365 Corneal Cellular Immunity in the Guinea Pig  
*Predrag S. Ugrinski and Charles H. Kirkpatrick*
- 377 Animal Model of Human Disease: Medullary Thyroid Carcinoma, Multiple Endocrine Neoplasia, Sipple's Syndrome  
*Charles C. Capen and Hugh E. Black*
- 1a Joint Meeting of The American Association of Pathologists and Bacteriologists, The American Association of Neuropathologists and The Pediatric Pathology Club: Scientific Proceedings, 1974

## March

- 381 Effect of a Transient Period of Ischemia on Myocardial Cells. I. Effects on Cell Volume Regulation  
*Daniel A. Whalen Jr, Donald G. Hamilton, Charles E. Ganote and Robert B. Jennings*
- 399 Effect of a Transient Period of Ischemia on Myocardial Cells. II. Fine Structure During the First Few Minutes of Re-flow  
*Robert A. Kloner, Charles E. Ganote, Daniel A. Whalen Jr and Robert B. Jennings*
- 423 Renal Biopsy Pathology in Wegener's Granulomatosis  
*Robert G. Horn, Anthony S. Fauci, Alan S. Rosenthal and Sheldon M. Wolff*
- 441 Ultrastructural Features of the Platelet Response to Phorbol Myristate Acetate  
*Richard D. Estensen and James G. White*
- 453 Cytochemical Electron Microscopic Studies of the Action of Phorbol Myristate Acetate on Platelets  
*James G. White and Richard D. Estensen*
- 467 Ultrastructural Pathology of Murine Cytomegalovirus Infection in Cultured Mouse Nervous System Tissue  
*Nicholas J. Willson, Joseph F. Schneider, Moshe Rosen and Elizabeth H. Belisle*
- 481 Effects of Cyclic Starvation-Feeding and of Splenectomy on the Development of Hemosiderosis in Rat Livers  
*G. W. Richter*
- 507 Venous Endothelial Damage Produced by Massive Sticking and Emigration of Leukocytes  
*Gwendolyn J. Stewart, William G. M. Ritchie and Peter R. Lynch*
- 533 Allografted Lungs in Matched Dogs with Induced Pulmonary Hypertension  
*J. J. Coalson, D. G. Kasil, M. H. Whalen and L. G. Greenfield*
- 551 Feline Hereditary Neuroaxonal Dystrophy  
*J. Carroll Woodard, George H. Collins and Jack R. Hessler*
- 567 Coagulation Studies and Correlative Histology During Experimental Hemoglobinemia in Rabbits  
*J. I. Spector, C. B. Wilson and W. H. Crosby*
- 575 Nonhepatic Theacetamide Injury. II. The Morphologic Features of Proximal Renal Tubular Injury  
*Edward A. Barker and Edward A. Smuckler*
- 591 Morphologic Variations in Periventricular Leukomalacia  
*Richard W. Leech and Ellsworth C. Alvord Jr*

- 603 Glial Fatty Metamorphosis: An Abnormal Response of Premyelin Glia Frequently  
Accompanying Periventricular Leukomalacia  
*Richard W. Leech and Ellsworth C. Alvord Jr*
- 613 Intracytoplasmic Junctions in Cardiac Muscle Cells  
*L. Maximilian Buja, Victor J. Ferrans and Barry J. Maron*
- 649 **Animal Model of Human Disease:** Feline GM1 Gangliosidosis  
*Henry J. Baker and J. Russell Lindsey*

**INDEX**

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 75

## Index of Subjects

Volume 75, 1974

- Adenovirus**
  - infection of adrenal gland, 363, 375
- Adrenal gland**
  - adenovirus infection of, 363, 375
  - cortical response to DDD, 181
  - glucocorticoids affecting beta cell replication, 329
- Aging**
  - in atomic bomb survivors, 1
- Anemia**
  - iron deficiency, splenic structure in, 243
- ANIMAL MODELS OF HUMAN DISEASE**
  - fructose intolerance, hereditary, 591
  - lymphosarcoma, 417
  - mammary neoplasia, 225
- Aorta**
  - thoracic, permeability of, 513
- Arterial wall**
  - injury from thromboemboli, 285
- Atherosclerosis lesions**
  - cholesteryl ester inclusions in, 423
- Atomic bomb survivors**
  - aging in, 1
- Beta cells**
  - encephalomyocarditis virus affecting, 91
  - replication after glucocorticoids, 329
- Blood**
  - interactions with dialysis unit components, 139
  - microcirculation in lymph nodes in xanthomatosis, 161
- Blood vessels (see vasculature)**
- Bone**
  - parathyroid hormone affecting, 529
- Breast cancer**
  - experimental, 225
- Bromocarbamide intoxication**
  - pulmonary edema from, 457
- C cells**
  - thyroid, calcium affecting, 27
- Calcium**
  - affecting thyroid C cells, 27
- Capillaries**
  - lymph node, in xanthomatosis, 161
- Catalase**
  - hepatic, methyl clofenapate affecting, 103
- Cell defects**
  - in diabetes, related to manifestations, 204
  - thermodynamic of, 13
- Central nervous system**
  - mutant viruses affecting, 119
- Chemotaxis**
  - radiation affecting, 61
- Cholera toxin**
  - vascular responses to, 171
- Cholesteryl ester inclusions**
  - in atherosclerosis lesions, 423
- Coagulation**
  - and venous thrombosis on prosthetic surfaces, 229
- Complement**
  - depletion affecting wound healing, 73
- DDD**
  - affecting adrenal cortex, 181
- Diabetes mellitus**
  - manifestations related to cell defects, 204
  - virus-induced, 91
- Dialysis**
  - unit components interacting with blood, 139
- Edema**
  - pulmonary, from bromocarbamide, 457
- Electron microscopy**
  - of adrenal cortex after DDD, 181
  - of adrenal gland inoculated with adenovirus, 375
  - of hepatitis B antigen in hepatocytes, 489
  - of liver after methyl clofenapate, 103
  - of mutant neurotropic viruses, 119
  - of parathyroid hormone effects on bone, 529
  - of splenic structure in iron deficiency anemia, 243
  - of vasculature after cholera toxin, 171
  - of venous thrombosis on prosthetic surfaces, 229
- Embolism**
  - and local arterial wall injury, 285
- Encephalomyelitis virus**
  - Venezuelan equine, affecting pancreas, 349
- Encephalomyocarditis virus**
  - inducing diabetes mellitus, 91
- Endothelial cells**
  - cholera toxin affecting, 171
- Endotoxin**
  - affecting glomerular fibrinolysis, 195

**Enzymes**

- in bone cells, parathyroid hormone affecting, 529
- methyl clofenapate affecting hepatic catalase, 103

**Ferritin subunits**

- detection by immunofluorescence, 473

**Fibrinolysis**

- glomerular, endotoxin affecting, 195

**Fructose intolerance**

- hereditary, ANIMAL MODEL OF HUMAN DISEASE, 591

**Glucose levels**

- encephalomyocarditis virus affecting, 91

**Gold**

- nephropathy from, 573

**Grafts (see transplantation)**

**Healing of wounds**

- complement depletion affecting, 73

**Hemodialysis**

- unit components interacting with blood, 139

**Hepatitis B antigen**

- in hepatocyte cytoplasm, 489

**Immunoelectronmicroscopy**

- of hepatitis B antigen in hepatocytes, 489

**Immunofluorescence**

- of ferritin subunits, 473

**Immunology**

- and enhancement of renal allografts, 255, 271
- and periodontal ligament allografts, 503

**Iron deficiency anemia**

- splenic structure in, 243

**Kidney**

- glomerular fibrinolysis after endotoxin, 195
- gold nephropathy, 573
- immunologic enhancement of allografts, 255, 271
- transplanted, pathology in, 543

**Leukocytes, polymorphonuclear**

- phorbol myristate acetate affecting, 45
- radiation affecting, 61

**Lipid levels**

- and hepatic activity after methyl clofenapate, 103
- and microcirculation of xanthomatous lymph nodes, 161

**Liver**

- hepatitis B antigen in hepatocytes, 489
- microbody and catalase activity after methyl clofenapate, 103

**Lungs**

- edema from bromocarbamide, 457

**Lymph nodes**

- microcirculation in xanthomatosis, 161

**Lymphopoiesis**

- in protein deficiency, 315

**Lymphosarcoma**

- bovine, ANIMAL MODEL OF HUMAN DISEASE, 417

**Methyl clofenapate**

- affecting hepatic microbodies and catalase activity, 103

**Microbodies**

- hepatic, methyl clofenapate affecting, 103

**Microcirculation**

- lymph node, in xanthomatosis, 161

**Molecular mechanisms**

- in cell injury, 13

**Neoplasia**

- and aging in atomic bomb survivors, 1
- experimental breast tumors, ANIMAL MODEL OF HUMAN DISEASE, 225
- lymphosarcoma in cattle, ANIMAL MODEL OF HUMAN DISEASE, 417

**Nephropathy**

- from gold, 573

**Nervous system**

- mutant viruses affecting, 119
- phagocyte origin in, 395

**Neurotropic viruses**

- mutant, 119

**Neutrophils (see leukocytes)**

**Pancreas**

- beta cell damage from encephalomyocarditis virus, 91
- beta cell replication after glucocorticoids, 329
- Venezuelan equine encephalomyelitis virus affecting, 349

**Parathyroid hormone**

- effects on bone, 529

**Periodontal ligament**

- allografts of, 503

**Permeability**

- of thoracic aorta, 513

**Phagocytes**

- origin in nervous system, 395

- Phagocytosis**
  - radiation affecting, 61
- Phorbol myristate acetate**
  - affecting platelet release reaction, 301
  - affecting polymorphonuclear leukocytes, 45
- Platelets**
  - release reaction after PMA, 301
- Pregnancy**
  - and glomerular fibrinolysis after endotoxin, 195
- Prosthetic surfaces**
  - venous thrombosis on, 229
- Protein**
  - deficiency of, lymphopoiesis in, 315
  - subunits of ferritin, detection of, 473
- Radiation**
  - affecting neutrophils, 61
  - and aging in atomic bomb survivors, 1
- Schwann cells**
  - and phagocytes in nervous system, 395
- Spleen**
  - structure in iron deficiency anemia, 243
- Thermodynamics**
  - of cell injury, 13
- Thromboembolism**
  - and local arterial wall injury, 285
- Thrombosis**
  - venous, on prosthetic surfaces, 229
- Thyroid gland**
  - calcium affecting C cells, 27
- Tooth grafts**
  - orthotopic, 503
- Toxic conditions**
  - gold nephropathy, 573
  - pulmonary edema from bromocarbamide, 457
- Transplantation**
  - enhancement of renal allografts in rats, 255, 271
  - pathology in donor kidneys, 543
  - tooth grafts, orthotopic, 503
- Tumors** (*see neoplasia*)
- Vasculature**
  - arterial wall injury from thromboemboli, 285
  - cholera toxin affecting, 171
  - lymph node microcirculation in xanthomatosis, 161
  - venous thrombosis on prosthetic surfaces, 229
- Veins**
  - thrombosis on prosthetic surfaces, 229
- Viruses**
  - adenovirus infection of adrenal gland, 363, 375
  - inducing diabetes mellitus, 91
  - mutant neurotropic, 119
  - Venezuelan equine encephalomyelitis virus affecting pancreas, 349
- Wound healing**
  - complement depletion affecting, 73
- Xanthomatosis**
  - lymph node microcirculation in, 161

## BOARD OF EDITORS

Thomas D. Kinney, *Editor-in-Chief*

Donald B. Hackel, *Associate Editor*

Orville T. Bailey	Robert H. Heptinstall
Frederick F. Becker	Paul Kotin
Baruj Benacerraf	Averill A. Liebow
Kurt Benirschke	Guido Majno
Joel G. Brunson	Reginald G. Mason
John R. Carter	Donald G. McKay
Charles G. Cochrane	Henry D. Moon
John M. Craig	Councilman Morgan
Frank J. Dixon, Jr	Goetz W. Richter
John T. Ellis	David T. Rowlands, Jr
Emmanuel Farber	Edward A. Smuckler
Frank W. Fitch	Leon Sokoloff
Patrick J. Fitzgerald	Benjamin H. Spargo
David G. Freiman	Lewis Thomas
Jack C. Geer	Jacinto J. Vazquez
Gabriel Godman	F. Stephen Vogel
John B. Hazard	

*Editorial Assistant: Virginia Hotelling*

## CONTENTS FOR VOLUME 75, 1974

### April

- 1 Aging in Hiroshima and Nagasaki Atomic Bomb Survivors: Speculations Based upon the Age-Specific Mortality of Persons with Malignant Neoplasms  
*Robert E. Anderson, Charles R. Key, Tsutomu Yamamoto and Todd Thorslund*
- 13 On the Thermodynamics of Cell Injury: Some Insights into the Molecular Mechanisms  
*Horton A. Johnson*
- 27 Effect of Calcium on Embryonic Rat Thyroid C Cells *In Vitro*  
*Sanford I. Roth, Joel D. Feinblatt and Lawrence G. Raisz*
- 45 Selective Labelization of Specific Granules in Polymorphonuclear Leukocytes by Phorbol Myristate Acetate  
*James G. White and Richard D. Estensen*
- 61 Effect of High Doses of Radiation on Human Neutrophil Chemotaxis, Phagocytosis and Morphology  
*Thomas R. Holley, Dennis E. Van Epps, Ronald L. Harvey, Robert E. Anderson and Ralph C. Williams Jr*
- 73 The Effect of Complement Depletion on Wound Healing  
*Sharon M. Wahl, William P. Arend and Russell Ross*
- 91 Virus-Induced Diabetes Mellitus. II. Relationship Between Beta Cell Damage and Hyperglycemia in Mice Infected with Encephalomyocarditis Virus  
*Kozaburo Hayashi, D. Wark Boucher and Abner Louis Notkins*
- 103 Hepatic Microbody Proliferation and Catalase Synthesis Induced by Methyl Clofenapate, a Hypolipidemic Analog of CPIB  
*Janardan K. Reddy*
- 119 Neurotropic Virus-Host Relationship Alterations Due to Variation in Viral Genome as Studied by Electron Microscopy  
*Cedric S. Raine and Bernard N. Fields*
- 139 Experimental Interactions of Components of Hemodialysis Units with Human Blood  
*W. H. Zucker, B. A. Shinoda and R. G. Mason*
- 161 Blood Microcirculation in the Lymph Node in Xanthomatosis  
*Peter G. Herman, Itaru Yamamoto and Harry Z. Mellins*
- 171 Vascular Leakage Through Intraendothelial Channels Induced by Cholera Toxin in the Skin of Guinea Pigs  
*Paulo H. Hashimoto, Shunhachi Takaesu, Masashi Chazono and Tsunehisa Amano*
- 181 Adrenal Cortical Degeneration and Regeneration Following Administration of DDD  
*J. M. Powers, G. R. Hennigar, G. Grooms and J. Nichols*
- 195 Glomerular Fibrinolytic Activity Following Endotoxin-Induced Glomerular Fibrin Deposition in the Pregnant Rat  
*Jerry M. Bergstein, John R. Hoyer and Alfred F. Michael Jr*
- 204 REVIEW ARTICLE: Manifestations of Diabetes Mellitus—Their Possible Relationships to an Underlying Cell Defect  
*Rudolf Vracko and Earl P. Benditt*
- 225 Animal Model of Human Disease: Canine Mammary Neoplasia  
*J. D. Strandberg and D. G. Goodman*

### May

- 229 Venous Thrombosis on Prosthetic Surfaces: Evolution and Blood Coagulation Studies in a Nonhuman Primate Model  
*N. F. Rodman, R. H. Wolf and R. G. Mason*
- 243 The Structure of Spleen in Experimentally Induced Iron Deficiency Anemia  
*Robert Rodvien, Mehdi Tavassoli and William H. Crosby*

- 255 Immunologic Enhancement of Rat Renal Allografts. I. Comparative Morphology of Acutely Rejecting and Passively Enhanced Grafts  
*A. K. Abbas, J. M. Corson, C. B. Carpenter, E. G. Galvanek, J. P. Merrill and G. J. Dammin*
- 271 Immunologic Enhancement of Rat Renal Allografts. II. Immunohistology of Acutely Rejecting and Passively Enhanced Grafts  
*A. K. Abbas, J. M. Corson, C. B. Carpenter, E. G. Galvanek, J. P. Merrill and G. J. Dammin*
- 285 Local Arterial Wall Injury Caused by Thromboemboli  
*William R. Salyer, Diane C. Salyer and Grover M. Hutchins*
- 301 Investigation of the Release Reaction in Platelets Exposed to Phorbol Myristate Acetate  
*James G. White, Gundu H. R. Rao and Richard D. Estensen*
- 315 Lymphopoiesis in Protein Deficiency: Stathmokinetic and Tritiated Thymidine Uptake Studies of the Mesenteric Lymph Node of the Guinea Pig  
*U. N. Bhuyan and V. Ramalingaswami*
- 329 Pancreatic Beta Cell Replication Induced by Glucocorticoids in Subhuman Primates  
*A. A. Like and W. L. Chick*
- 349 Pancreatic Involvement by Venezuelan Equine Encephalomyelitis Virus in the Hamster  
*Leo Gorelkin and Peter B. Jahrling*
- 363 Experimental Adenovirus Infection of the Mouse Adrenal Gland. I. Light Microscopic Observations  
*George Margolis, Lawrence Kilham and Eugene M. Hoenig*
- 375 Experimental Adenovirus Infection of the Mouse Adrenal Gland. II. Electron Microscopic Observations  
*Eugene M. Hoenig, George Margolis and Lawrence Kilham*
- 395 Schwann Cell Properties. II. The Identity of Phagocytes in the Degenerating Nerve  
*H. Mei Liu*
- 417 Animal Model of Human Disease: Malignant Lymphoma  
*Janice M. Miller*

## June

- 423 Cholesteryl Ester-Rich Inclusions from Human Aortic Fatty Streak and Fibrous Plaque Lesions of Atherosclerosis. I. Crystalline Properties, Size and Internal Structure  
*Yoshiya Hata, John Hower and William Insull Jr*
- 457 Interstitial Pulmonary Edema Following Bromocarbamide Intoxication  
*H. Sugihara, M. Hagedorn, D. Böttcher, H. Neuhoof and Ch. Mittermayer*
- 473 Detection of Protein Subunits of Ferritin *In Situ* in Cells by Immunofluorescence  
*J. C. K. Lee, S. S. Lee, K. J. Schlesinger and G. W. Richter*
- 489 Electron Microscopy and Immunoelectronmicroscopy of Cytoplasmic Hepatitis B Antigen in Hepatocytes  
*Michael A. Gerber, Stefanos Hadziyannis, Charalampos Vissoulis, Fenton Schaffner, Fiorenzo Paronetto and Hans Popper*
- 503 Evidence of the Alloimmunogenic Potential of Donor Periodontal Ligament  
*Peter J. Robinson and David T. Rowlands Jr*
- 513 Regional Variation in the Permeability of Rat Thoracic Aorta  
*Filiberto Giacomelli and Joseph Wiener*
- 529 Effects of Parathyroid Hormone on Bone of Thyroparathyroidectomized Rats: An Ultrastructural and Enzymatic Study  
*Steven E. Weisbrode, Charles C. Capen and Larry A. Nagode*
- 543 Course of Transplanted Cadaver Donor Kidneys with Previously Existing Pathology  
*Norman Ende*
- 573 Gold Nephropathy Prototype of Membranous Glomerulonephritis  
*Tom Törnroth and Bo Skrifvars*
- 591 Animal Model of Human Disease: Hereditary Fructose Intolerance  
*M. J. Phillips, Dinah T. Yu and Helen B. Burch*
- 595 Index of Subjects, Volume 75
- 599 Index of Authors, Volume 75

**INDEX**

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 76

# Index of Subjects

Volume 76, 1974

- Acid phosphatase**
  - in cells from atheromatous aorta, 1
- Acinar cells**
  - from mammary gland, purification of, 95
- Adrenal gland**
  - fetal, neuroblastic cells in, 225
- $\alpha$ -Adrenergic blockade**
  - affecting portal pressure, 206
- Adreno-leukodystrophy, 481**
  - Agaricus bisporus*
    - bacteriocidal quinoids from, 165
- Animal models of human disease**
  - lead toxicity in Mongolian gerbils, 79
  - motor neuron degeneration in wobbler mice, 63
  - pancreatic cancer, 349
  - phlebosclerosis, 377
  - pyelonephritis in rats, 49, 419
  - rhinitis, viral, 333
  - testicular feminization in mouse, 589
- Antibiotics**
  - pulmonary infection from, 469
- Antibodies**
  - in EAE, 529
- Aorta**
  - atheromatous, lysosome changes in, 1
  - intimal thickening in, 245, 265
- Arterial wall**
  - lysosomes of, 1
- Arteriovenous fistulae**
  - anastomosed veins of, 377
- Atheromatous aorta**
  - lysosome changes in, 1
- Atherosclerosis**
  - venous changes in, 377
- Bacterial flora**
  - pharyngeal, antibiotics affecting, 469
- Bacteriocidal quinoids**
  - from mushrooms, 165
- Bacteriology**
  - and enterococcal pyelonephritis in rats, 49, 419
- Basement membrane antigen**
  - in cells, 549
- BCG-induced granulomas**
  - differentiation of mononuclear phagocytes in, 17
  - macrophages in, 313
- Blood flow**
  - coronary collateral circulation, 561
  - renal medullary, in papillary necrosis, 521
- Bone**
  - response to vitamin D in uremia, 359
- Breast**
  - acinar cells from, purification of, 95
- Calcium balance**
  - and vitamin D in uremia, 359
- Cancer (see neoplasia)**
- Catalase**
  - in cells from atheromatous aorta, 1
- Concanavalin A**
  - binding sites on murine neuroblastoma cells, 285
- Coronary collateral circulation**
  - functional significance of, 561
- Cytochemistry**
  - and basement membrane antigen in cells, 549
  - and lysosomes of arterial wall, 1
- Diaminobenzidine-positive particles**
  - in cells from atheromatous aorta, 1
- Dibenzylamine**
  - affecting portal pressure, 206
- Differentiation of cells**
  - liver cells in defined medium, 107
  - mononuclear phagocytes in BCG-induced granulomas, 17
- Electron microscopy**
  - of adreno-leukodystrophy, 481
  - of anastomosed veins, 377
  - of aortic intimal thickening, 245, 265
  - of bone response to vitamin D in uremia, 359
  - of hemorrhage from snake venom, 401
  - of hepatosplenic schistosomiasis with nephropathy, 433
  - of IgA nephropathy, 129
  - of immune-complex glomerulonephritis in monkeys, 151
  - of lead toxicity in gerbils, 83
  - of liver cell differentiation in defined medium, 111
  - of liver in hypervitaminosis A, 451
  - of neuroblastoma, murine, 285
  - of urate crystal-induced lysosomal leakage, 501
- Ellagic acid**
  - hepatic vein thrombosis from, 179, 195
- Encephalomyelitis**
  - experimental allergic, antibodies in, 529

- Endothelialization**  
and aortic intimal thickening, 265
- Endotoxin**  
hepatic vein thrombosis from, 179, 195
- Enterococcal pyelonephritis**, 419  
treatment affecting pathology of, 49
- Feminization**  
testicular, experimental, 589
- Fetus**  
neuroblastic cells in adrenal glands of, 225
- Glomerulonephritis**  
immune-complex, in monkeys, 145
- Gout**  
mechanism of inflammation in, 501
- Granulomas, BCG-induced**  
differentiation of mononuclear phagocytes in, 17  
macrophages in, 313
- Hageman factor**  
activation of, and thrombosis in hyperlipemic rats, 179
- Heart**  
and coronary collateral circulation, 561
- Hematogenous enterococcal pyelonephritis**  
in rats, 49, 419
- Hemorrhage**  
from snake venom, 401
- Hepatic vein**  
thrombosis in hyperlipemic rats, 179, 195
- Hypervitaminosis A**  
liver changes in, 451
- Immune-complex glomerulonephritis**  
in monkeys, 145
- Immunofluorescence studies**  
of hepatosplenic schistosomiasis with nephropathy, 433  
of IgA nephropathy, 126  
of immune-complex glomerulonephritis in monkeys, 148
- Immunoglobulin A**  
in nephropathy, 123
- Immunology**  
antibodies in EAE, 529  
basement membrane antigen in cells, 549  
and enterococcal pyelonephritis in rats, 419
- Intimal thickening**  
in anastomosed veins, 377  
aortic, 245, 265
- Kidney**  
enterococcal pyelonephritis in rats, 49, 419  
experimental papillary necrosis, 521  
IgA nephropathy, 123  
immune-complex glomerulonephritis in monkeys, 145  
nephropathy with hepatosplenic schistosomiasis, 433
- Lactating mammary gland**  
acinar cells from, purification of, 95
- Lead toxicity**  
in Mongolian gerbils, 79
- Lipid levels**  
and thrombosis in hyperlipemic rats, 179, 195
- Liver**  
cell differentiation in defined medium, 107  
hepatic vein thrombosis in hyperlipemic rats, 179, 195  
hepatosplenic schistosomiasis with nephropathy, 433  
in hypervitaminosis A, 451
- Lungs**  
granulomatous, macrophages in, 313  
infections from antibiotics, 469  
ricketsial infection in mouse, 213
- Lysosomal leakage**  
urate crystal-induced, 501
- Macrophages**  
in protein deficiency, 313
- Mammary gland**  
acinar cells from, purification of, 95
- Mononuclear phagocytes**  
differentiation *in vivo*, 17
- Mushroom**  
bacteriocidal quinoids from, 165
- Neoplasia**  
neuroblastoma, murine, 285  
pancreatic cancer in hamsters, 349
- Nephropathy, IgA**, 123
- Nervous system**  
adreno-leukodystrophy, 481  
pathologic findings in wobbler mice, 63
- Neuroblastic cells**  
in fetal adrenal gland, 225
- Neuroblastoma**  
murine, 285
- Neuronal degeneration**  
in wobbler mice, 63
- Newcastle disease virus**  
in respiratory tract of chicken, 333
- Organ cultures**

- and liver cell differentiation in defined medium, 107
- Osteocytes**
  - after vitamin D in uremia, 359
- Oxacillin**
  - affecting pharyngeal bacterial flora, 469
- Pancreas**
  - cancer of, in hamsters, 349
- Peripheral nerves**
  - in adreno-leukodystrophy, 481
- Permeability**
  - aortic, and intimal thickening, 265
- Phagocytes**
  - mononuclear, differentiation *in vivo*, 17
- Phagocytosis**
  - of urate crystals, and lysosomal leakage, 501
- Pharynx**
  - bacterial flora in, antibiotics affecting, 469
- Phenoxybenzamine**
  - affecting portal pressure, 296
- Phlebosclerosis**
  - experimental, 377
- Phosphatase, acid**
  - in cells from atheromatous aorta, 1
- Platelets**
  - isolated, function studies of, 323
- Pneumonia**
  - from antibiotics, 469
- Poisoning**
  - from lead, in Mongolian gerbils, 79
- Protein deficiency**
  - macrophage function in, 313
- Pyelonephritis, enterococcal**, 419
  - treatment affecting pathology of, 49
- Quinoids**
  - bacteriocidal, from mushroom, 165
- Respiratory tract**
  - chicken, Newcastle disease virus in, 333
- Rhinitis**
  - experimental, 333
- Rickettsial infection**
  - of lung in mice, 213
- Schilder's disease**
  - sex-linked, 481
- Schistosomiasis**
  - hepatosplenic, with nephropathy, 433
- Snake venom**
  - and hemorrhage pathogenesis, 401
- Sporulation**
  - in mushroom, quinoids affecting, 165
- Streptococcus faecalis***
  - and hematogenous pyelonephritis in rats, 49, 419
- Testicular feminization**
  - experimental, 589
- Testis**
  - in adreno-leukodystrophy, 481
- Thrombosis**
  - in hyperlipemic rats, 179, 195
- Tissue culture**
  - of murine neuroblastoma, 285
- Toxic conditions**
  - lead toxicity in Mongolian gerbils, 79
- Tuberculosis**
  - macrophage function in, 313
- Tumors** (*see neoplasia*)
- Urate crystals**
  - phagocytosis of, and lysosomal leakage, 501
- Uremia**
  - vitamin D in, bone response to, 359
- Vasculature**
  - aortic intimal thickening, 245, 265
  - coronary collateral circulation, 561
  - hepatic vein thrombosis in hyperlipemic rats, 179, 195
  - lysosomes of arterial wall, 1
  - ultrastructure of anastomosed veins, 377
- Veins**
  - anastomosed, ultrastructure of, 377
  - hepatic vein thrombosis in hyperlipemic rats, 179, 195
- Venom**
  - and hemorrhage pathogenesis, 401
- Virus**
  - Newcastle disease, in respiratory tract of chicken, 333
- Vitamin A**
  - hypervitaminosis with liver changes, 451
- Vitamin D**
  - in remia, bone response to, 359
- Wobbler mice**
  - pathologic findings in, 63

THE AMERICAN ASSOCIATION OF  
PATHOLOGISTS AND BACTERIOLOGISTS

THE AMERICAN SOCIETY FOR  
EXPERIMENTAL PATHOLOGY

---

Volume 76, 1974

(July through September)

## BOARD OF EDITORS

Thomas D. Kinney, *Editor-in-Chief*

Donald B. Hackel, *Associate Editor*

Orville T. Bailey	Robert H. Heptinstall
Frederick F. Becker	Paul Kotin
Baruj Benacerraf	Averill A. Liebow
Kurt Benirschke	Guido Majno
Joel G. Brunson	Reginald G. Mason
John R. Carter	Donald G. McKay
Charles G. Cochrane	Henry D. Moon
John M. Craig	Councilman Morgan
Frank J. Dixon, Jr	Goetz W. Richter
John T. Ellis	David T. Rowlands, Jr
Emmanuel Farber	Edward A. Smuckler
Frank W. Fitch	Leon Sokoloff
Patrick J. Fitzgerald	Benjamin H. Spargo
David G. Freiman	Lewis Thomas
Jack C. Geer	Jacinto J. Vazquez
Gabriel Godman	F. Stephen Vogel
John B. Hazard	

*Editorial Assistant: Virginia Hotelling*

## CONTENTS FOR VOLUME 76, 1974

### July

- 1 Lysosomes of the Arterial Wall. IV. Cytochemical Localization of Acid Phosphatase and Catalase in Smooth Muscle Cells and Foam Cells from Rabbit Atheromatous Aorta  
*Helen Shio, Marilyn G. Farquhar and Christian de Duve*
- 17 The Structure of Mononuclear Phagocytes Differentiating *In Vivo*. I. Sequential Fine and Histologic Studies of the Effect of Bacillus Calmette-Guerin (BCG)  
*Dolph O. Adams*
- 49 Pyelonephritis. XVIII. Effect of Treatment on the Pathology of Enterococcal Pyelonephritis in the Rat  
*Richard J. Glasscock, George M. Kalmanson and Lucien B. Guze*
- 63 Studies on a Murine Form of Spontaneous Lower Motor Neuron Degeneration—The Wobbler (*wr*) Mouse  
*John M. Andrews, Murray B. Gardner, Frederick J. Wolfgram, George W. Ellison, David D. Porter and Warren W. Brandkamp*
- 79 The Mongolian Gerbil as a Model for Lead Toxicity. I. Studies of Acute Poisoning  
*Curtis D. Port, David W. Baxter and Ward R. Richter*
- 95 Separation of Acinar Cells from Lactating Mammary Gland Using Velocity Sedimentation in an Isokinetic Gradient of Ficoll in Tissue Culture Medium  
*Thomas G. Pretlow II, Sherron R. Dow, Tariq M. Murad and Judith Jones*
- 107 Liver Cell Differentiation in a Chemically Defined Medium: Morphologic and Enzymatic Comparison of *In Utero* Rat Liver and Liver Rudiment Grown in Organ Culture  
*I. Parsa*
- 123 IgA Nephropathy  
*Ralph C. McCoy, Carlos Abramowsky and C. Craig Tisher*
- 145 Naturally Occurring Immune-Complex Glomerulonephritis in Monkeys (*Macaca irus*). I. Light, Immunofluorescence and Electron Microscopic Studies  
*Thomas R. Poskitt, H. Philip Fortwengler Jr, James C. Bobrow and Gerald J. Roth*
- 165 Bacteriocidal Properties of a Class of Quinoid Compounds Related to Sporulation in the Mushroom, *Agaricus bisporus*  
*F. Stephen Vogel, Sharon J. McGarry, Lieselotte A. K. Kemper and Doyle G. Graham*
- 175 Animal Model of Human Disease: Oxygen Toxicity  
*F. R. Robinson, H. W. Casey and E. R. Weibel*

### August

- 179 Activation of Hageman Factor and Initiation of Hepatic Vein Thrombosis in the Hyperlipemic Rat  
*Jean-Gilles Latour, Claudette Léger and Serge Renaud*
- 195 On the Mechanisms Responsible for Selection of Hepatic Veins as Target for Thrombosis Following Injection of Endotoxin in Hyperlipemic Rats  
*Jean-Gilles Latour, Claudette Léger, Serge Renaud and Pierre Simard*
- 213 Infectious Process in the Lungs After Intranasal Challenge of White Mice with *Rickettsia prowazekii*: A Histologic Immunoluminescent and Electron Microscopic Study  
*T. N. Khavkin, B. M. Ariel, N. I. Amosenkova and F. I. Krasnik*
- 225 The Natural History of Neuroblastic Cells in the Fetal Adrenal Gland  
*Susan Beckwith Turkel and Hideo H. Itabashi*

- 245 Experimental Aortic Intimal Thickening. I. Morphology and Source of Intimal Cells  
W. S. Webster, S. P. Bishop and J. C. Geer
- 265 Experimental Aortic Intimal Thickening. II. Endothelialization and Permeability  
W. S. Webster, S. P. Bishop and J. C. Geer
- 285 The Undifferentiated and Extended Forms of C1300 Murine Neuroblastoma: An Ultrastructural Study and Detection of Concanavalin A Binding Sites on the Plasma Membrane  
D. I. Graham, N. K. Gonatas and F. C. Charalampous
- 313 Systemic Macrophage Mobilization and Granulomatous Response to BCG in the Protein-Deficient Rabbit  
U. N. Bhuyan and V. Ramalingaswami
- 323 Comparison of Certain Functions of Human Platelets Separated from Blood by Various Means  
R. G. Mason, M. S. Read and R. W. Shermer
- 333 Acute Newcastle Viral Infection of the Upper Respiratory Tract of the Chicken. I. A Model for the Study of Environmental Factors on Upper Respiratory Tract Infection  
F. B. Bang, M. Foard and B. G. Bang
- 349 Cancer of the Pancreas Induced in the Syrian Golden Hamster  
Parviz Pour, F. W. Krüger, J. Althoff, A. Cardesa and U. Mohr
- 359 Ultrastructural Evaluation of the Effects of Vitamin D and Uremia on Bone in the Rat  
Steven E. Weisbrode, Charles C. Capen and Larry A. Nagode
- 377 The Ultrastructure of the Anastomosed Vein of Experimental Arteriovenous Fistulae in Sheep  
W. E. Stehbens
- 401 Pathogenesis of Hemorrhage Induced by Rattlesnake Venom: An Electron Microscopic Study  
Charlotte L. Ownby, Robert A. Kainer and Anthony T. Tu
- 415 Animal Model of Human Disease: Burkitt's Lymphoma, Malignant Lymphoma and Lymphocytic Leukemia  
Ronald D. Hunt and Luis V. Meléndez

## September

- 419 Hematogenous *Streptococcus faecalis* Pyelonephritis in the Rat: A Histologic, Immunopathologic and Bacteriologic Study  
Sherwood A. Libit, Alfred F. Michael, Robert L. Vernier and Alfred J. Fish
- 433 The Nephropathy of Experimental Hepatosplenic Schistosomiasis  
Tito Cavallo, Eleonora G. Galvanek, Peter A. Ward and Franz von Lichtenberg
- 451 Ultrastructural Changes in Livers of Two Patients with Hypervitaminosis A  
Zdenek Hruban, Robert M. Russell, James L. Boyer, Seymour Glagov and Saeed A. Bagheri
- 469 Pulmonary Infection Due to Disruption of the Pharyngeal Bacterial Flora by Antibiotics in Hamsters  
Harry P. Dalton, Michaelen Muhovich, Mario R. Escobar and Marvin J. Allison
- 481 Adreno-leukodystrophy (Sex-Linked Schilder's Disease): A Pathogenetic Hypothesis Based on Ultrastructural Lesions in Adrenal Cortex, Peripheral Nerve and Testis  
James M. Powers and Herbert H. Schaumburg
- 501 Ultrastructural Evidence for Leakage of Lysosomal Contents After Phagocytosis of Monosodium Urate Crystals: A Mechanism of Gouty Inflammation  
Tsuranobu Shirahama and Alan S. Cohen
- 521 Experimental Papillary Necrosis of the Kidney. IV. Medullary Plasma Flow  
K. Soletz, M. Miller, P. A. Quarles, P. M. Finer and R. H. Heptinstall
- 529 The Significance of Circulating and Cell-Bound Antibodies in Experimental Allergic Encephalomyelitis  
Nicholas K. Gonatas, Jacqueline O. Gonatas, Anna Stieber, Robert Lisak, Kunuhiko Suzuki and Russell E. Martenson

- 549 Intracellular Localization of Basement Membrane Antigen in Parietal Yolk Sac Cells  
*Antonio Martinez-Hernandez, Paul K. Nakane and G. Barry Pierce*
- 561 REVIEW ARTICLE: Functional Significance of the Coronary Collateral Circulation  
*Colin M. Bloor*
- 589 **Animal Model of Human Disease: Testicular Feminization**  
*Susumu Ohno*
- 

593 Index of Subjects, Volume 76

597 Index of Authors, Volume 76

# INDEX

SUBJECT

AUTHOR

CONTENTS FOR VOLUME 77

# Index of Subjects

Volume 77, 1974

- AAPB**, history, supplement to October issue, 1s-218s
- A23187**  
affecting erythrocyte morphology, 507  
affecting platelets, 135, 151
- Acid phosphatase**  
in parathyroid glands, 493
- Adriamycin**  
myocardial changes from, 439
- Amyloidosis**  
splenic, and mouse syngeneic lymphoma, 213
- Anemia**  
sickle cell, kidney in, 357
- Animal Models of Human Disease**  
autosomal trisomies, 539  
cytomegalovirus ophthalmitis, 477  
fetal growth retardation, 347  
hemolytic anemia associated with vitamin E deficiency, 123
- Antigens**  
binding to lymphocytes, 2
- Anuria**  
from mercury poisoning, tubular leakage in, 175
- Arteriosclerosis**  
in homocysteinemia, 167
- Basal lamina**  
properties of, 314
- Basophils**  
chemotactic factors for, 476
- Bleomycin**  
pulmonary fibrosis from, 185
- Bone**  
calcitonin affecting, after vitamin D, 455
- Bone marrow**  
phagocytosis in, 423
- Brain**  
intraventricular hemorrhage in newborn, 465
- Bronchi**  
venular leakage in endotoxin shock, 387
- Capillaries**  
pulmonary, permeability in shock lung, 387
- Carbon**  
colloidal, phagocytosis of, in marrow, 423
- Carcinogenesis**  
symposium on, 67  
*see also neoplasia*
- Cells**  
follicular, in anterior pituitary, 199
- Cellular events**  
after antigen-lymphocyte binding, 2
- Chediak-Higashi syndrome**  
and peroxidase fate in renal lysosomes, 407
- Chemotaxis**  
leukocyte, 472
- Colloidal carbon**  
phagocytosis of, in marrow, 423
- Cytomegalovirus**  
and carcinogenesis, 93  
and experimental ophthalmitis, 477
- Cytotaxis**  
of leukocytes, 472
- Differentiations**  
in neoplasms, 103
- Electron microscopy**  
of acid phosphatase in parathyroid glands, 493  
of calcitonin effects on bone after vitamin D, 455  
of follicular cells in anterior pituitary, 199  
of platelets after ionophore A23187, 151  
of platelets separated from blood, 255  
of sclerosing hemangioma, 377
- Endocytosis**  
by peritoneal lymphocytes, 23
- Endotoxin**  
placental damage from, 299  
shock from, bronchial venular leakage in, 387
- Eosinophils**  
chemotactic factors for, 476
- Epstein-Barr virus**  
and carcinogenesis, 89
- Erythrocytes**  
A23187 affecting, 507  
heterologous, phagocytosis of, in marrow, 423
- Eye**  
experimental cytomegalovirus ophthalmitis, 477  
retina in lead poisoning, 237
- Farber, Sidney**, 129
- Fibrosis**  
pulmonary, from bleomycin, 185
- Follicular cells**  
in anterior pituitary, 199

- Genetics**  
  and cancer, 77  
  and lysozyme deficiency in rabbits, 283
- Glomerulus**  
  in sickle cell anemia, 357
- Gold Headed Cane Award**, 351
- Granules**  
  neutrophil, 41
- Healing of wounds**  
  basal lamina in, 328
- Heart**  
  adriamycin affecting myocardium, 439
- Hemangioma**  
  sclerosing, ultrastructure of, 377
- Hemorrhage**  
  subependymal and intraventricular, in newborn, 465
- Heredity**  
  and cancer, 77  
  and lysozyme deficiency in rabbits, 283
- Herpes viruses**  
  and animal neoplasms, 87  
  and human cancers, 91
- Homocyst(e)inemia**  
  and arteriosclerosis, 167
- Immunology**  
  antigen-lymphocyte binding, 2  
  and transplanted syngeneic lymphoma in mice, 213  
  and tumor growth, 119
- Ionophore A23187**  
  affecting erythrocyte morphology, 507  
  affecting platelets, 135, 151
- Kidney**  
  adenocarcinoma in amphibians, 87  
  basal lamina of, 320  
  fate of peroxidase in lysosomes of, in Chediak-Higashi syndrome, 407  
  nephrotoxicity of D-serine, 269  
  in sickle cell anemia, 357  
  tubular leakage in anuria from mercury poisoning, 175
- Lead poisoning**  
  retinal pigment epithelium in, 237
- Leukotaxis**, 472
- Liver**  
  basal lamina of, 326
- Lucké tumor**  
  in frogs, 87
- Lungs**  
  basal lamina of, 319  
  in endotoxin shock, 387  
  fibrosis from bleomycin, 185
- Lymphocytes**  
  antigen binding to, 2  
  chemotactic factors for, 478  
  peritoneal, endocytosis by, 23
- Lymphoma**  
  syngeneic cells injected in mice, 213
- Lysosomes**  
  renal, peroxidase fate in, in Chediak-Higashi syndrome, 407
- Lysozyme**  
  deficiency in rabbits, 283
- Marek's disease**, 86
- Marrow**  
  phagocytosis in, 423
- Membranes**  
  basal lamina properties, 314  
  of malignant cells, 69
- Mercury poisoning**  
  anuria from, tubular leakage in, 175
- Monocytes**  
  chemotactic factors for, 477
- Muscle**  
  basal lamina of, 317
- Mutations**  
  in neoplasms, 103
- Myocardium**  
  adriamycin affecting, 439
- Neoplasia**  
  adriamycin therapy in, affecting myocardium, 439  
  differentiation and mutation in, 103  
  hereditary aspects of cancer, 77  
  immunomodulation of growth in, 119  
  membranes of malignant cells, 69  
  symposium on carcinogenesis, 67  
  transplanted syngeneic lymphoma in mice, 213  
  viruses in carcinogenesis, 85
- Nephrotic syndrome**  
  and sickle cell anemia, 357
- Nervous system**  
  basal lamina of, 323
- Neutrophils**  
  chemotactic factors for, 473  
  isolation of granules in, 41
- Ophthalmitis**  
  cytomegalovirus, experimental, 477
- Pancreas**  
  basal lamina of, 322
- Parathyroid glands**  
  acid phosphatase in, 493  
  calcitonin effects on bone, after vi-

- tamin D in thyroparathyroidectomized rats, 455
- Peritoneal lymphocytes**
  - normal, 23
- Peroxidase**
  - fate in renal lysosomes, in Chediak-Higashi syndrome, 407
- Phagocytosis**
  - in bone marrow, 423
  - by peritoneal lymphocytes, 23
- Phosphatase**
  - acid, in parathyroid glands, 493
- Pigment epithelium**
  - retinal, in lead poisoning, 237
- Pinkerton, Henry, 351**
- Pinocytosis**
  - by peritoneal lymphocytes, 23
- Pituitary**
  - anterior, follicular cells in, 199
- Placenta**
  - damage from *Salmonella dublin*, 299
- Platelets**
  - A23187 affecting, 135, 151
  - ultrastructure after separation from blood, 255
- Poisoning**
  - lead, retinal pigment epithelium in, 237
  - mercury, anuria in, tubular leakage in, 175
  - nephrotoxicity of D-serine, 269
- Pregnancy**
  - and placental damage from endotoxin, 299
- Premature infants**
  - intraventricular hemorrhages in, 465
- Regeneration**
  - basal lamina in, 328
- Respiratory distress syndrome**
  - and subependymal hemorrhages, 465
- Retina**
  - in lead poisoning, 237
- Salmonella dublin*
  - placental damage from, 299
- Scar formation**
  - basal lamina in, 330
- Sclerosing hemangioma**
  - ultrastructure of, 377
- D-Serine**
  - nephrotoxicity of, 269
- Shock**
  - endotoxin, bronchial venular leakage in, 387
- Sickle cell anemia**
  - kidney in, 357
- Skin**
  - basal lamina of, 324
  - sclerosing hemangioma ultrastructure, 377
- Spleen**
  - in transplanted syngeneic lymphoma in mice, 213
- Symposium**
  - on carcinogenesis, 67
- Thyroparathyroidectomized rats**
  - and calcitonin effects on bone after vitamin D, 455
- Trisomies**
  - autosomal, animal model of, 539
- Tumors (see neoplasia)**
- Vascular conditions**
  - arteriosclerosis in homocysteinemia, 167
  - bronchial venular leakage in endotoxin shock, 387

# Index of Authors

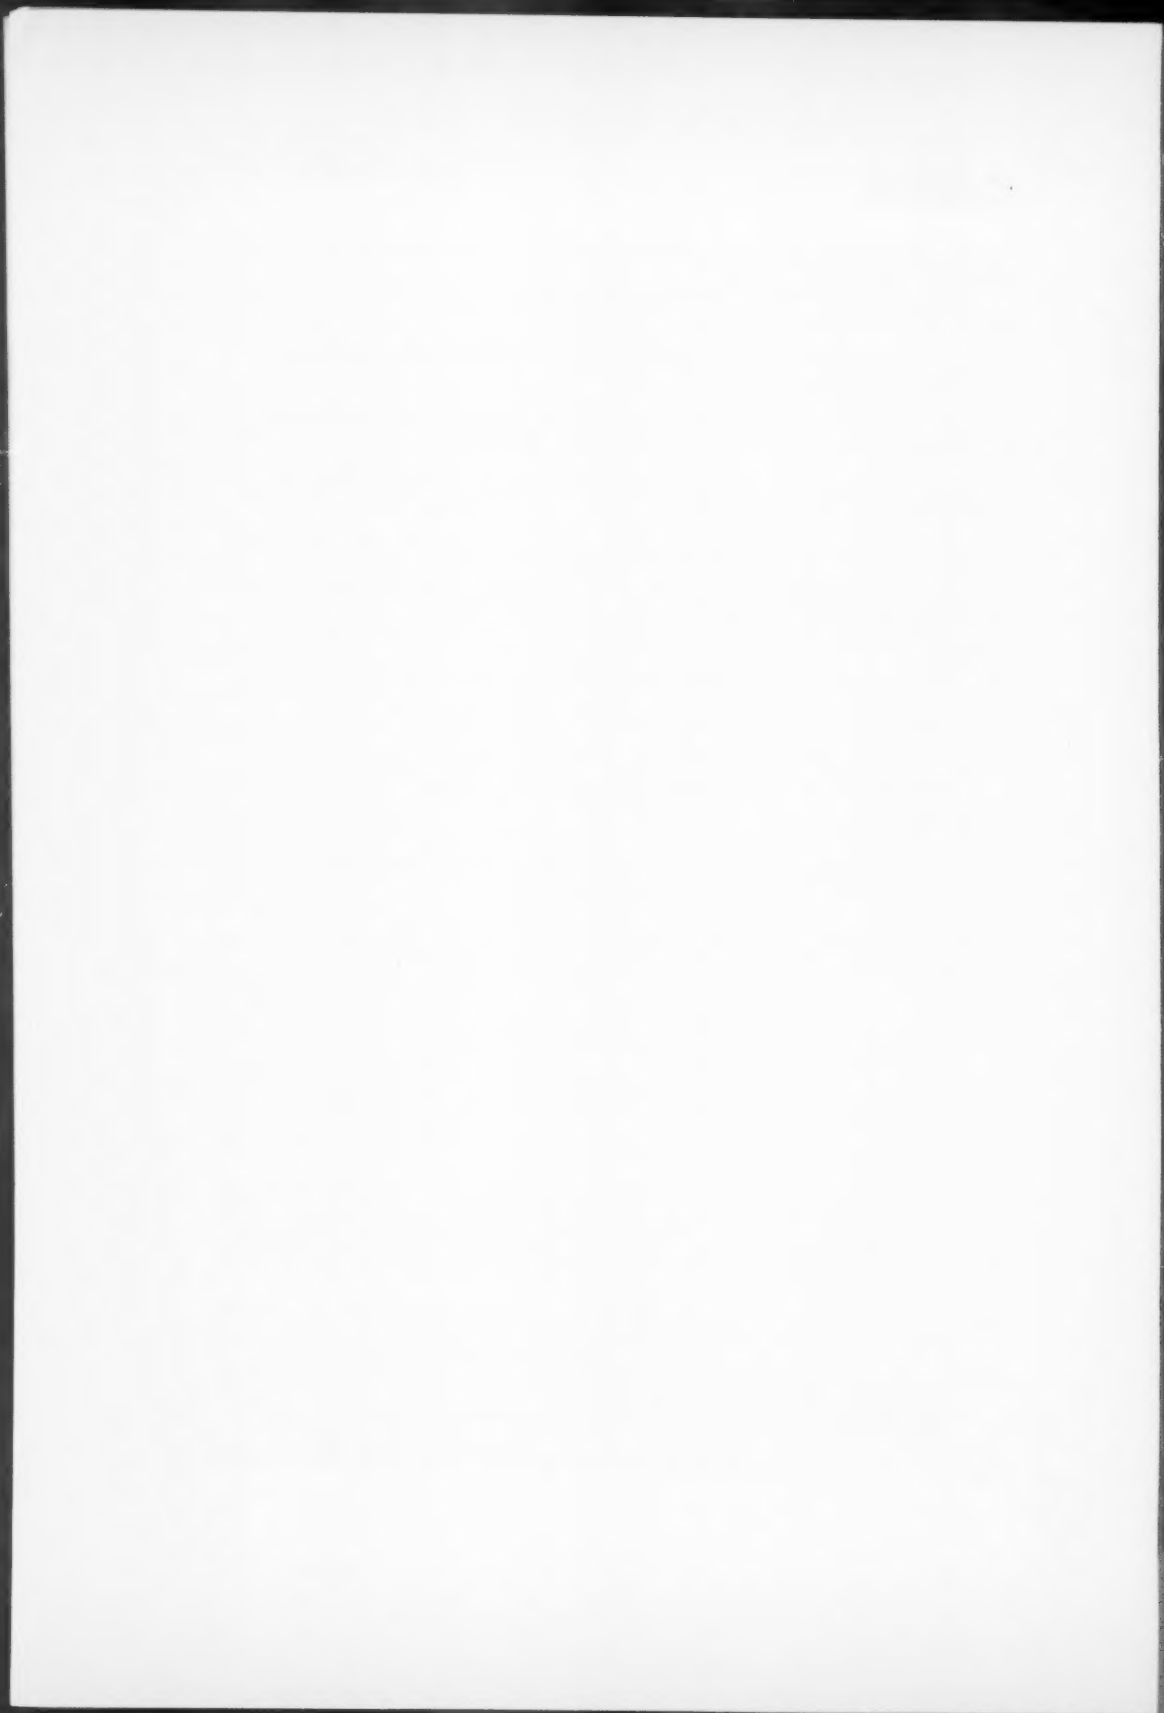

Volume 77, 1974

Adamson IYR, Bowden DH: The pathogenesis of bleomycin-induced pulmonary fibrosis in mice (November)	185
Aizawa K: See Wada T, Aizawa K, Kan K, Kitamoto K, Kuroda S, Ogama M, Kato E	175
Bailey OT: Sidney Farber, MD, 1903-1973 (November)	127
Bowden DH: See Adamson IYR, Bowden DH	185
Buss ER: See Rapp F, Buss ER	85
Capen CC: See Weisbrode SE, Capen CC	455
Carone FA: See Ganote CE, Peterson DR, Carone FA	269
Carpenter HM: See Pietra GG, Szidon JP, Carpenter HA, Fishman AP	387
Carstens PHB, Schrodt GR: Ultrastructure of sclerosing hemangioma (December)	377
Catanzaro PJ, Graham RC Jr: Normal peritoneal lymphocytes: A population with increased capacity for endocytosis (October)	23
Coogan PS: See Hughes WF, Coogan PS	237
Daniels CA: See Schwartz JN, Daniels CA, Shivers JC, Klintworth GK	477
Donahue S, Sturman JA, Gaul G: Arteriosclerosis due to homocyst(e)inemia: Failure to reproduce the model in weaning rabbits (November)	167
Drewinko B: See Jurin M, Drewinko B	213
Elfenbein IB, Patchefsky A, Schwartz W, Weinstein AG: Pathology of the glomerulus in sickle cell anemia with and without nephrotic syndrome (December)	357
Essner E, Oliver C, Haimes H: Fate of exogenous peroxidase in renal lysosomes of mice with Chediak-Higashi syndrome (December)	407
Ezrin C: See Horvath E, Kovacs K, Penz G, Ezrin C	199
Farber E: President's Symposium: Perspectives in carcinogenesis (October)	68
Fishman AP: See Pietra GG, Szidon JP, Carpenter HA, Fishman AP	387
Ganote CE, Peterson DR, Carone FA: The nature of D-serine-induced nephrotoxicity (November)	269
Gaul G: See Donahue S, Sturman JA, Gaul G	167
Gelb NA: See West BC, Rosenthal AS, Gelb NA, Kimbel HR	41
Gerrard JM: See White JG, Rao GHR, Gerrard JM	135
Graham RC Jr: See Catanzaro PJ, Graham RC Jr	23
Gropp A: ANIMAL MODEL OF HUMAN DISEASE: Autosomal trisomy, developmental impairment and fetal death (December)	539
Haimes H: See Essner E, Oliver C, Haimes H	407
Hall GA: An investigation into the mechanism of placental damage in rats inoculated with <i>Salmonella dublin</i> (November)	299
Hass GM: Presentation of the Gold Headed Cane to Henry Pinkerton (December)	351
Hayes KC: ANIMAL MODEL OF HUMAN DISEASE: Hemolytic anemia of premature infants associated with vitamin E deficiency (October)	123
Horvath E, Kovacs K, Penz G, Ezrin C: Origin, possible function and fate of "follicular cells" in the anterior lobe of the human pituitary: An electron microscopic study (November)	199
Hughes WF, Coogan PS: Pathology of the pigment epithelium and retina in rabbits poisoned with lead (November)	237
Jurin M, Drewinko B: Natural history of mouse syngeneic lymphoma: Morphologic and immunologic aspects (November)	213

Kan K: <i>See</i> Wada T, Aizawa K, Kan K, Kitamoto K, Kuroda S, Ogawa M, Kato E .....	175

## CONTENTS FOR VOLUME 77, 1974

### October

- 1 PARKE-DAVIS LECTURE: Cellular Events Following Binding of Antigen to Lymphocytes  
*Emil R. Unanue*
- 23 Normal Peritoneal Lymphocytes: A Population with Increased Capacity for Endocytosis  
*Phillip J. Catanzaro and Richard C. Graham Jr*
- 41 Separation and Characterization of Human Neutrophil Granules  
*Burton C. West, Alan S. Rosenthal, Nancy A. Gelb and Harry R. Kimball*
- PRESIDENT'S SYMPOSIUM: PERSPECTIVES IN CARCINOGENESIS
- 68 Introduction  
*Emmanuel Farber*
- 69 The Malignant Cell and Its Membranes  
*Leonard Warren*
- 77 Heredity and Human Cancer  
*Alfred G. Knudson Jr*
- 85 Are Viruses Important in Carcinogenesis?  
*Fred Rapp and Ellen R. Buss*
- 103 Neoplasms, Differentiations and Mutations  
*G. Barry Pierce*
- 119 Immunomodulation of Tumor Growth  
*Richmond T. Prehn*
- 123 Animal Model of Human Disease: Hemolytic Anemia of Premature Infants Associated with Vitamin E Deficiency  
*K. C. Hayes*

### October Supplement: History of the American Association of Pathologists and Bacteriologists

- v Preface
- 1 Chapter I: Organization
- 8 Chapter II: The First Decade 1901-1910)
- 35 Chapter III: The Second Decade (1911-1920)
- 59 Chapter IV: The Third Decade (1921-1930)
- 83 Chapter V: The Fourth Decade (1931-1940)
- 107 Chapter VI: The Fifth Decade (1941-1950)
- 129 Chapter VII: The Sixth Decade (1951-1960)
- 158 Chapter VIII: The Seventh and Early Eighth Decades (1961-1974)
- 188 Chapter IX: The Gold Headed Cane
- 192 Appendix I: Site of Annual Meetings and Officers of the American Association of Pathologists and Bacteriologists (1901-1975)

- 196 Appendix II: Record of Past Symposia
- 197 Appendix III: Award of the Gold Headed Cane
- 198 Appendix IV: Original Constitution and By-Laws (1901)
- 199 Appendix V: Constitution, By-Laws and Articles of Incorporation (1965)
- 206 Index of Subjects
- 211 Index of Personal Names

## November

- 127 Sidney Farber, MD, 1903-1973  
*Orville T. Bailey*
- 135 Effects of the Ionophore A23187 on Blood Platelets. I. Influence on Aggregation and Secretion  
*James G. White, Gundu H. R. Rao and Jonathan M. Gerrard*
- 151 Effects of the Ionophore A23187 on Blood Platelets. II. Influence on Ultrastructure  
*Jonathan M. Gerrard, James G. White and Gundu H. R. Rao*
- 167 Arteriosclerosis Due to Homocyst(e)inemia: Failure to Reproduce the Model in Weanling Rabbits  
*Sheila Donahue, John A. Sturman and Gerald Gaull*
- 175 Morphologic Evidence to Support the Role of Tubular Leakage as a Cause of Anuria Induced by Mercury Poisoning  
*Takao Wada, Koh Aizawa, Keika Kan, Kiyoshi Kitamoto, Shigeomi Kuroda, Masaru Ogawa and Eiichi Kato*
- 185 The Pathogenesis of Bleomycin-Induced Pulmonary Fibrosis in Mice  
*Ian Y. R. Adamson and Drummond H. Bowden*
- 199 Origin, Possible Function and Fate of "Follicular Cells" in the Anterior Lobe of the Human Pituitary: An Electron Microscopic Study  
*E. Horvath, K. Kovacs, G. Penz and C. Ezrin*
- 213 Natural History of Mouse Syngeneic Lymphoma: Morphologic and Immunologic Aspects  
*Mislav Jurin and Benjamin Drewinko*
- 237 Pathology of the Pigment Epithelium and Retina in Rabbits Poisoned with Lead  
*W. Franklin Hughes and P. S. Coogan*
- 255 Ultrastructural Comparison of Human Platelets Separated from Blood by Various Means  
*W. H. Zucker, R. W. Shermer and R. G. Mason*
- 269 The Nature of D-Serine-Induced Nephrotoxicity  
*Charles E. Ganote, Darryl R. Peterson and Frank A. Carone*
- 283 Lysozyme Deficiency—An Inherited Disorder of Rabbits  
*David J. Prieur, Harry M. Olson and David M. Young*
- 299 An Investigation into the Mechanism of Placental Damage in Rats Inoculated with *Salmonella dublin*  
*G. A. Hall*
- 313 REVIEW ARTICLE: Basal Lamina Scaffold—Anatomy and Significance for Maintenance of Orderly Tissue Structure  
*Rudolf Vracko*
- 347 Animal Model of Human Disease: Fetal Growth Retardation  
*J. S. Wigglesworth*

## December

- 351 Presentation of the Gold Headed Cane to Henry Pinkerton  
*George M. Hass*
- 357 Pathology of the Glomerulus in Sickle Cell Anemia With and Without Nephrotic Syndrome  
*I. Bruce Elfenbein, Arthur Patchefsky, William Schwartz and Andrew G. Weinstein*
- 377 Ultrastructure of Sclerosing Hemangioma  
*Per Henrik Becher Carstens and George Randolph Schrodt*
- 387 Bronchial Venular Leakage During Endotoxin Shock  
*G. G. Pietra, J. P. Szidon, H. A. Carpenter and A. P. Fishman*
- 407 Fate of Exogenous Peroxidase in Renal Lysosomes of Mice with Chediak-Higashi Syndrome  
*Edward Essner, Constance Oliver and Howard Haimes*
- 423 Phagocytosis of Colloidal Carbon and Heterologous Red Blood Cells in the Bone Marrow of Rats and Rabbits  
*S. C. Luk and G. T. Simon*
- 439 Electrolyte and Morphologic Alterations of Myocardium in Adriamycin-Treated Rabbits  
*Harry M. Olson, David M. Young, David J. Prieur, Andre F. LeRoy and Reginald L. Reagan*
- 455 Ultrastructural Evaluation of the Effects of Calcitonin on Bone in Thyroparathyroidectomized Rats Administered Vitamin D  
*Steven E. Weisbrode and Charles C. Capen*
- 465 Subependymal and Intraventricular Hemorrhages in the Newborn  
*Richard W. Leech and Paul Kohnen*
- 477 Experimental Cytomegalovirus Ophthalmitis  
*Jared N. Schwartz, Charles A. Daniels, Jeffrey C. Shivers and Gordon K. Klintworth*
- 493 An Ultrastructural Study of Acid Phosphatase Activity in Normal, Adenomatous and Hyperplastic (Chief Cell Type) Human Parathyroid Glands  
*W. Allen Shannon Jr and Sanford I. Roth*
- 507 Effects of an Ionophore, A23187, on the Surface Morphology of Normal Erythrocytes  
*James G. White*
- 519 REVIEW ARTICLE: Leukotaxis and Leukotactic Disorders  
*Peter A. Ward*
- 539 **Animal Model of Human Disease: Autosomal Trisomy, Developmental Impairment and Fetal Death**  
*A. Gropp*
- 
- 543 Index of Subjects, Volume 77
- 547 Index of Authors, Volume 77

**Article IX****Corporate Seal**

SECTION 1—The seal of the corporation, shall be in circular form and shall contain the following words: "The American Association of Pathologists and Bacteriologists—Organized 1900—Incorporated 1965—Corporate Seal".

SECTION 2—The corporate seal may be affixed to any instrument by impression only unless specific authorization is given by a majority of the Council to attach the corporate seal to multiple instruments by reproduction, engraving, printing or other facsimile process.

**Article X****Amendments to the By-Laws**

SECTION 1—The initial By-Laws of the Association shall be adopted by its Council. Thereafter the By-Laws of the Association may be repealed, altered, or amended at any duly convened meeting of the membership by an affirmative vote of not less than three-fourths (¾) of the members present.

SECTION 2—In the event any of the provisions of these By-Laws are or shall be in conflict or contrary to the laws of Missouri pertaining to the organization and management of corporations of this class, then the provisions of such law or laws shall be considered as substituted automatically in these By-Laws and the other portions of these By-Laws shall remain in full force and effect.

## Index of Subjects

- ACTH**, 136s  
**Addison's disease**, 112s  
**Administration of AAPB**  
     in fifth decade, 115s-116s  
     in first decade, 19s-28s  
     in fourth decade, 92s  
     in second decade, 44s-45s  
     in seventh and early eighth decades, 167s-168s  
     in sixth decade, 142s  
     in third decade, 67s  
**Adrenal pathology**, 112s, 136s, 196s  
**Affiliations of AAPB**  
     in fifth decade, 120s-123s  
     in first decade, 27s  
     in fourth decade, 96s-100s  
     in second decade, 49s-51s  
     in seventh and early eighth decades, 175s-177s  
     in sixth decade, 147s  
     in third decade, 72s-75s  
**Agglutinins**, 18s  
**Agranulocytosis**, 87s  
**Allergy**, 66s, 115s, 162s  
**Alveolar cells**, 164s  
**American Association for the Advancement of Science**, 27s, 75s  
**American Association of Anatomists**, 73s  
**American Association for Cancer Research**, 36s, 50s, 59s, 73s, 75s, 83s, 98s, 121s  
**American Association of Immunologists**, 36s, 42s, 45s, 50s, 59s, 75s, 83s, 98s, 121s  
**American Association of Medical Museums**, 75s  
**American Association of Neuropathologists**, 171s  
**American Board of Pathology**, 176s  
**American Chemical Society**, 98s  
**American Journal of Pathology**, 68s, 71s, 72s, 93s, 95s, 116s, 118s, 144s-146s, 173s-175s  
**American Medical Association**, 72s, 98s, 99s  
**American Pathology Research Award**, 177s  
**American Registries of Pathology**, 120s, 146s, 147s  
**American Society of Clinical Pathologists**, 98s, 122s, 148s  
**American Society for Experimental Pathology**, 69s, 74s, 94s, 97s, 121s, 148s, 176s  
**American Specialty Board of Pathology**, 149s  
**American Type Culture Collection**, 98s, 122s, 147s  
  
**Amyloid**, 110s, 141s  
**Anaphylaxis**, 18s, 43s, 66s, 115s  
**Anatomic pathology** (*see general pathology*)  
**Anemia**  
     aplastic, 87s  
     hemolytic, 136s  
     pernicious, 111s  
**Antibodies**, 42s  
**Antitoxins, and toxins**, 18s, 43s, 66s  
**Aorta**  
     coarctation of, 37s, 61s  
     elastic tissue of, 110s  
**Armed Forces Institute of Pathology**, 100s, 120s, 122s, 146s, 150s  
**Army Medical Museum**, 120s, 146s  
**Arteriosclerosis**, 17s, 85s, 111s, 114s, 131s, 166s, 196s  
**Arthritis**, 87s  
**Arthus reaction**, 66s, 162s  
**Asbestosis**, 132s  
**Association of American Medical Colleges**, 73s-74s, 176s  
**Association of American Physicians**, 1s, 3s, 4s, 5s, 24s  
**Association of Physicians and Pathologists**, 1s  
**Asthma**, 66s  
**Autoradiography**, 141s  
**Awards** (*see also Gold Headed Cane*)  
     American Pathology Research Award, 177s  
     Rous-Whipple Award, 177s  
  
**Bacteriology**  
     in fifth decade, 115s  
     in first decade, 13s-15s  
     in fourth decade, 90s  
     in second decade, 41s-42s  
     in sixth decade, 139s  
     in third decade, 65s  
**Bacteriophage**, 65s  
**Bence-Jones protein**, 137s  
**Bergey's Manual of Determinative Bacteriology**, 14s  
**Blastomycosis**, 11s, 15s, 38s, 41s, 65s  
**Blood-forming organs**, 10s, 38s, 63s, 136s  
**Blood pathology**, 12s  
**Bone disease**, 64s, 111s, 196s  
**Bone marrow**  
     disorders of, 63s, 87s  
     transfusions of, 136s  
**Brain tumors**, 63s  
**Breast pathology**, 10s, 38s  
**By-laws of AAPB**  
     adopted in 1900, 26s, 198s  
     adopted in 1965, 172s, 201s  
     in second decade, 47s

in seventh and early eighth decades,  
171s-172s  
in sixth decade, 144s

**Cancer** (*see neoplasia*)

**Cardiovascular pathology**  
in fifth decade, 110s  
in first decade, 9s, 12s  
in fourth decade, 85s, 89s  
in second decade, 37s, 61s  
in sixth decade, 131s, 132s

**Cellular injury**, 163s, 196s

**Cellular membrane**, 166s, 196s

**Cellular secretion disorders**, 164s, 196s

**Chemical pathology**, 11s, 158s

**Chemotherapy**, 138s, 140s, 196s

**Chemotropism**, 91s

**Chromatography**, 141s

**Chromosomal abnormalities**, 141s, 163s,  
196s

**Cirrhosis**, 38s, 40s, 63s, 86s, 134s

**Coagulation**, 12s

**Coccidioidomycosis**, 15s, 38s, 41s, 65s

**Colitis**, 38s

**Collagen disease**, 86s, 109s, 110s, 196s

**College of American Pathologists**, 122s,  
148s

**Commission on Biological Stains**, 98s,  
122s, 175s

**Committee on the Type Culture Collec-  
tion**, 98s, 122s, 147s

**Complement fixation**, 18s

**Congress of American Physicians and  
Surgeons**, 24s, 27s-28s, 42s, 49s,  
72s-73s, 94s, 96s, 120s-121s

**Constitution of AAPB**  
adopted in 1900, 19s, 26s, 198s  
adopted in 1965, 172s, 199s  
in fourth decade, 94s  
in second decade, 47s  
in seventh and early eighth decades,  
171s-172s  
in sixth decade, 144s

**Cortisone**, 136s

**Council of AAPB**, 19s-29s

**Coxsackie viruses**, 139s

**Cryptococcosis**, 139s

**Cysticercosis**, 139s

**Degenerative disorders**, 11s, 13s, 39s

**Dinner arrangements** (*see social  
events*)

**Diphtheria**, 14s, 15s, 43s

**Dues of AAPB**, 22s-23s, 143s

**Eighth decade of AAPB**, 158s-187s

**Electron microscopy**, 115s, 141s-142s,  
161s-162s, 196s

**Electrophoresis**, 141s

**Embolism**  
pulmonary, 37s, 132s

**Encephalomyelitis**  
equine, 90s, 115s

**Endocarditis**, 37s, 61s, 111s, 131s

**Endocrine disorders**, 196s  
in fifth decade, 112s  
in first decade, 10s  
in fourth decade, 87s
